

LANKESTERIANA

AUTHOR INSTRUCTIONS

LANKESTERIANA is a peer-reviewed journal. Each manuscript will be critically evaluated by two or more external reviewers.

Please read carefully the following Instructions and check the appropriate items to be sure your manuscript is formatted according to the journal style. Manuscripts that do not conform to the Instructions, both in format and contents, will be sent back to the authors for formatting prior to the reviewing process. This would represent a significant delay in the times required to eventually publish your manuscript

Preparation and submission of illustrations

- Illustrations should be submitted digitally as TIF files (or, exceptionally, in any format that is Adobe Photoshop compatible). Do not submit original artworks. Illustrations in “native application” file formats (e.g., PageMaker, Quark, Excel, Word, WordPerfect, etc.) will not be accepted. Photographs should be scanned at a resolution of 600 dpi; line art, 600 to 1200 dpi. All digital illustrations must be complete, with letters, scale bars, and any other labeling; label figures by press-on letters or symbols or by other mechanical lettering process; labels produced on a typewriter, dot matrix, or inkjet are unacceptable. No modifications of incomplete illustrations are provided by the editorial staff; reproduction is virtually identical to what is submitted; illustrations will not be enhanced by the editorial staff.

- Parts of a plate are labeled A, B, C, etc. Letters will be black on a white or light background; white on dark background. They are not placed over a rectangular, contrasting background, but directly on the photograph or the drawing itself, without any frame.
- All original artwork from which digital illustrations are derived **MUST** be signed; unsigned digital illustrations will not be accepted. The artist must also be cited in the Acknowledgments.
- For all illustrations, halftones/black-and-white photographs, the electronic files print size should be as close as possible to final published size. Print size may be reduced without loss of quality, but small files cannot be altered to fit larger dimensions.
- Length of an illustration or plate as published is 8" (205 mm). Allow space in that 8" for the printed caption to appear below the figure. Two widths are possible as published: 1-column is 2.8" (71 mm); full page is 5.75" (146 mm). Final resolution of all the images can not be less than 300dpi.
- Do not combine photographs and line art.
- When preparing composite illustrations, do not space between the components. Place numbers and/or letters on the illustration itself, not in the margins.
- Magnifications must be indicated by means of scale bars placed directly on the illustrations. Magnifications in the figure legend are not acceptable, and such figures will be returned to the author for scale bars.
- Maps should have a border, an indication of latitude and longitude, and should not have an undue amount of unused area. Distributions of several species with non-overlapping ranges can be placed on one map by using different symbols.
- Illustrations of a new species should show clearly the characteristics that distinguish it.
