Visit the new LANKESTERIANA webpage at
www.lankesteriana.org

Originally devoted to the publication of articles on general botany, with special attention to epiphytic plants and orchid systematics, ecology, evolution and physiology, along with book reviews and conferences on these subjects, since 2007 LANKESTERIANA focused exclusively on scientific papers on orchidology.

LANKESTERIANA is a peer-reviewed journal that publishes original works in English and occasionally in Spanish, and it is distributed to more than 350 libraries and institutions worldwide.

In order to increase visibility of the articles published in LANKESTERIANA, the journal maintains since 2009 a web page with downloadable contents.

With November, 2011, we present to our readers a new interface of the journal at www.lankesteriana.org

Please bookmark the new address of the webpage, which substitutes the previous address hosted at the internal server of ucr.ac.cr.

Readers can now browse through all the past issues of LANKESTERIANA, including the current issue, and download them as complete fascicles or, via the Index to the single issues, only the articles of their interest.

According to the Open Access policy promoted by the University of Costa Rica, all the publications supported by the University are licensed under the Creative Commons copyright. Downloading LANKESTERIANA is completely free.

At the home page of LANKESTERIANA you may also search for author names, article titles, scientific names, key words or any other word which should appear in the text you are looking for.

We take the opportunity to acknowledge our authors, reviewers and readers, who help us making a better scientific journal.
