

ERRATUM

The article “Molecular identification and genetic studies in Peruvian *Phragmipedium*”, submitted by Isaias Rolando as the abstract of the conference he presented at the 3rd International Orchid Conservation Congress held in San José, Costa Rica, in May 2007, and eventually published in the past issue of *Lankesteriana* (Rolando *et al.* 2007), do not represent an original work by the main author.

Instead, the content of the article refers to the results of a study carried out by Manuel Rodríguez Salas, Jorge Benavides Ranilla, and Jose R. Espinoza (Rodríguez Salas *et al.* 2007).

The supposed co-authors of the article, i.e., M. Rodríguez, M. Damian, J. Benavides, A. Manrique, and J. Espinoza, have to be considered absolutely

extraneous to the submission and in no way responsible for the published matter.
